

Quantum Healing Art
Artist Joseph Boutros Ghabi

Art Catalogue. Week 2. 2022.

Quantum Healing Art
Artist Joseph Boutros Ghabi

AGAPE

Solo Exhibition

“Committed to freeing the human Soul.”

Artist Statement

With my background in energy work and my awareness of energy, vibration and frequencies of over 35 years, I am here to awaken and empower a new appreciation and function of art.

Since 2018, I have been creating acrylic abstract art, as an intuitive self-taught artist. I am filled with energy and thirsty for alternative expression. My compositions are intense with strong contrasts that bring more healing power into my paintings.

Focusing on the effects that feelings have in our lives and creating Quantum Healing Art with frequencies of positive emotions, brings about empowerment in human consciousness, and ultimately for freeing the human Soul.

Artist Joseph Boutros Ghabi, an electrical engineer and 35 years Master Healer /Blueprint Numerologist, creates Quantum Healing Art that connects spirituality and physicality in our human consciousness. He is committed to freeing the human Soul.

I am a self-taught artist.

I didn't start out as an artist. In fact, I've never been "into" art, and I'm awful at drawing. You see, I got an invitation from one of my clients to his birthday party in 2017. His girlfriend had arranged a paint night with one of her artist friends.

It would have been easy to turn that down, saying to myself, "I don't know how to paint. I am not a painter. I am not an artist," but all I remember saying was, "Oh, sure! I'll be there!"

The party ended up being quite exciting and fun, and I decided that painting was something I'd love to do again.

That year, I painted 5 pieces. The following year, 2018, I created 85 paintings. To date, I've painted over 400 paintings, and I'm excited to share them with you!

Painted: 11/30/2018

AGAPE Solo Exhibition

Artist Joseph Boutros Ghabi debuts his first Solo Exhibition on the eve of his 60th Birthday in May 2022, as a gift to himself in self-love and unconditional love for the history of the people who preceded him. The artist recounts, "This exhibition is about giving myself the gift of appreciation for what I have accomplished in my life. For the happiness and joy I have experienced throughout my life, and for the blissfulness I now feel."

AGAPE Solo Exhibition is about bringing the Artist Joseph Boutros Ghabi back home to discover the missing pieces of his life. Through his beautiful paintings, he welcomes all to explore the mystery and power of his insights. He presents the light of his origins, to awaken and inspire the light of humanity's 'homecoming.'

The artist's current name Ghabi was adopted as a translation of the name Agape, the Greek word meaning Unconditional Love. The name highlights the lineage of Joseph's family from his father's side, when family members moved from Greece to Phoenicia, or modern day Lebanon.

"I had an affinity with Greece, even though out of 45 countries I travelled to, Greece isn't yet one of them," says Joseph. "I was drawn to the Greek Mathematician Pythagoras, who has heavily influenced my 35-year career as Master Healer / Blueprint Numerologist. I am constantly looking for new ways to innovate with my life-long commitment to freeing the human soul, and currently my energy work is a big part of creating Quantum Healing Art."

AGAPE Solo Exhibition is aligned to the Artist's lifelong commitment to freeing the human Soul. On many different levels we can all relate to the origins of the name Agape, as it refers to the movement of our own ancestry, family history, and the relocation of groups of people, to different countries and continents, overtime. As humans, we all experience our life's worst and best of times and we all have questions on why we do what we do without the awareness of what is working through us on a Soul level. This exhibition highlights answers to the questions 'Why are we here?' and 'What else is possible for humanity?'

What is Quantum Healing Art?

As we already know everything is energy. Each energy vibrates on a different frequency. Quantum Healing Art aligns frequency to the life outcomes that you desire.

Each art invested in or commissioned, ideal for your home or place of work, can be created with quantum healing frequency to fulfill a task or energetic shift that you would like to achieve. I intentionally create the paintings with positive frequencies to replace defined negative ones, including any sickness or pain that you would like to drop from your life and environment.

How does Quantum Healing Art work?

All of my work in Quantum Healing Art relies heavily on my experience with Master Energetic Healer and Blueprint Numerology, as well as in the use of my Spiritual Councils and Guides.* I have seen that simply looking at or interacting with Quantum Healing Art can bring about profound energetic transformations in a person's dis-ease and / or mental and emotional wellbeing.

Currently my Quantum Healing Art is created with healing frequency found in colors. Color has frequency and each color can add up into a certain vibration. Each color that I select can be calculated using the negative vibration of the dis-ease identified and then intentionally mixed or layered with the positive vibration of that dis-ease, to create the final painting.

Quantum Healing Art connects both abstract art with intuition in a way that aligns Source energy with a human's Soul. No specific aesthetic outcome is intended in creating Quantum Healing Art. There is no need for previous experience or training in art. The only requirement is to let go of inhibitions or a need to control the outcome and to allow the creative true self to flow and express itself.

*Working with Spiritual Councils and Guides is a practice used extensively in Spiritual Healing, that shifts awareness beyond the practitioner to access the intelligence of the Universe.

This Quantum Healing Art can be activated and it was created with the frequency for Possibilities, Choices and Potential.
